## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-17 and 18-19, drawn to a method for creating a network configuration for low degree of separation demand, classified in class 709, subclass 220 (network computer configuration).
  - II. Claims 20-34, drawn to a method for creating a network configuration, including routing based on priority, classified in class 370, subclass 395.42.
  - III. Claims 35-49, drawn to a programmable apparatus for creating a network configuration, classified in class 709, subclass 220.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-III and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a method for creating a network configuration for low degree of separation demand, defining and calculating an RP. The method routes demand in order of an RP (routing priority) value. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2182

4. Because these inventions are distinct for the reasons given above and the search required for Groups I-III is not required for Group II, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
